Bayley scales of infant and toddler development (Bayley-III)

By Bayley, Nancy

Pearson, 2005. Book Condition: New. Método: Individual, 1- 42 meses. Indicaciones: para aplicar desde 30 minutos a 90 minutos, dependiendo de la edad del niño. Bayley-III identifies infant and toddler strengths and competencies, as well as their weakness. It also provides a valid and reliable measure of a child's abilities, in addition to giving comparison data for children with high-incidence clinical diagnoses. Growth scores can be used to chart intervention progress, and it's useful in programme evaluation, ongoing monitoring of progress and outcome measurement. The Bayley Scales of Infant Development (Bayley-III) are recognised internationally as one of the most comprehensive tools to assess children from as young as one month old. With Bayley-III, it is possible to obtain detailed information even from non-verbal children as to their functioning. Children are assessed in the five key developmental domains of cognition, language, social-emotional, motor and adaptive behaviour. Bayley-III offers significant additions and improvements to the previous editions. Key features: Core battery of five scales: Three scales administered with child interaction; cognitive, motor, language. Two scales conducted with parent questionnaires; social-emotional, adaptive behaviour Caregiver Report Form - a template for the examiner to provide scores, information on tests given, how child performed and...
